

PRINCE EDWARD POINT OBSERVATORY

- from Kingston, travel west on Hwy 33 to the Glenora Ferry
- the Glenora Ferry -leaves the Kingston side on the 1/4 and 3/4 hour
- leaves the Picton side on the 1/2 and full hour
- when you leave the ferry, travel ~.8km
- take first left turn on to regional road 7
- travel ~4km (past Lake on the Mountain)
- turn right on regional road 25
- travel ~2.5km
- turn left on county road 8
- travel ~1.8km
- turn right on regional road 13 (watch carefully for this turn, it's on a curve -- if you miss it you'll go down a hill and be on your way to Waupoos --oops!!)
- travel ~2km
- turn left at T junction (main road)
- stay on regional road 13 -- you'll pass through Black River....keep going....you'll pass a little museum with a lighthouse at South Bay...keep going....
- once past South Bay the road is known as Long Pt. road and eventually turns to gravel
- the road curves in many areas, there are branching sideroads, and another T junction -- keep to the left on the main road
- once in the wildlife area (you'll see blue signs to this effect) keep going until you reach a brown cottage on your right (it has a flag pole outside)

WELCOME !!

Kingston to Prince Edward Pt. ~1.5 hours

Glenora Ferry (Picton side) to cottage ~40km
